H. B. KOOSER IS COINC TO DENVER

Commercial Agent of the Missouri Pacific Promoted.

C. A. TRIPP IS COMING HERE.

Appointment Goes Into Effect July 1, When the Transfer Will be Made -General Ballroad News

H. B. Kooser, commercial freight and passenger agent of the Missouri Pacific for Salt Lake, has been appointed general western freight and passenger agent for the same system with headquarters at Denver; the appointment is effective July 1. Mr. Kooser will succeed Chrestus A. Tripp, who, on that date, will be transferred to this city in his place.

The rumor to the effect that there would be changes in Salt Lake in the near future have been prevalent upon Railroad Row for some time past. It now transpires that Mr. Kooser was to have gone to Denver a month ago, but owing to the fact that providing that a Missouri Pacific directorate might be elected at the meeting of the Rio Grande Western stockholders he concluded to stay in Salt Lake pending developments. Had this actually occurred, it is asserted, Mr. Kooser would have been given an important post under the new management of the Western. A Denver & Rio Grande director ate was elected, however, and that had the effect of changing the plans of a number of those interested. On Thursday Vice President C. G. Warner, of the Missouri Pacific, who is father-inlaw to Mr. Kooser, wired from Denver to Salt Lake with the result that Mr. Kooser boarded the train for Colorado. The greatest secrecy regarding the trip was observed, even to the extent of buying a Pullman reservation on the train. At the uptown office it was given out that he had gone to Price to attend the wool sale today. This statement was also forthcoming this morning when enquiry was made at the of-fices of the Missouri Pacific. A tracer sent to Denver, however, brings word that Mr. Kooser is in that city and the appointment has been made. Official irculars of the same will be out within

the next few days. In Mr. Kooser's promotion to Den-ver local railroad circles will suffer a great loss. He has a number of busi-ness and social friends here, who, while they will be glad to hear of his advancement, at the same time will be sorry to see him leave Salt Lake. He is a practical, progressive railroad man, a good fellow and universally liked and esteemed.

Chrestus A. Tripp who will come to Salt Lake at the first of next month to take charge of the local office, was born at Manchester, Ia. He entered the rallroad service in 1872, since which he has been consecutively 1872 to 1881. operator at Jonesburg, Mo., agent at St. Charles, Mo., special of the state of the St. Charles, Mo., special agent, etc., North Missouri road (now the Wabash); 1881 to 1887, traveling auditor, Denver & Rio Grande; with manager of construction of the same road, freight and ticket agent at Pueblo, Colo., and commercial agent of the same road; December, 1887 to May, 1890, gen-eral agent of the Missouri Pacific at Pueblo: May, 1890, to date general western freight and passenger agent of the same road.

BACK FROM UVADA.

C. R. Savage Returns from a Trip Along the Scene of Operations.

C. R. Savage, the official photographer for the Oregon Short Line, returned from a trip below the construction operations in Nevada this morning. He reports that section of the country to be a veritable hive of industry and the construction of the railroad to be a veritable blessing for the farmers down in that section who are deserting their farms to work on the road with their teams. Mr. Savage says that there are fully 400 men at work down on There are also a horse-power,

steam pile driver, and a tracklaying plant of the "biggest magnitude" in full blast under the direction of Thomas M. Baird, superintendent of construc-tion. "While they are not putting down the heaviest steel, at the same time the track that is now down for over 24 miles makes better riding than that on the old Utah & Pacific," he "and heavy trains can make 3 miles an hour on it with ease and safe-ty. The road is now within 230 miles from Barstow and will, I have no doubt, be pushed through to a finish. The gangs are now at work in Clover Creek canyon, and there are about nineteen miles more of the grade to be covered Clover Creek canyon is not unlike We-ber canyon, and is full of sharp turns that require some engineering. In al there are six tunnels in the canyon which are splendid pieces of work and are timbered throughout; one of them is also lined with iron. The Clark people are working down on the Mead-ow wash and there is sure to be some trouble when the rival roads get together. There is a lot of work get together. There is a lot of work to be done yet in the canyon, including the building of a big trestle which will be sixty feet in height." Mr. Savage while on his trip took a number of interesting views of the scenery and operations down on the grade.

Attorney-General Breeden has rendered the following opinion in answer to a request from State Auditor C. S. Tingey as to whether one-half the salary of county attorneys, from January 1st to March 14th, 1901, is a proper charge against the State, and if so, whether the same can be paid out of the appropriation of 1901.

The opinion of the attorney-general is as follows:
"I am of the opinion that the State is liable to Sanpete county and to Utah county (which counties have, as you inform me, presented claims there-for) for one-half the salary of their respective county attorneys from Jan. 1st to March 4th. 1901.
